

The Cystinosis Foundation is pleased to host the 7th International Cystinosis Congress at Marriott Charles de Gaulle, Paris, France June 28-July 1, 2012.

In collaboration with AIRG-France and Cystinose France, this important bi-annual meeting for families and medical professionals features presentations by experts in the field of cystinosis about research progress, question and answer sessions, workshops and opportunities to meet individuals and families coping with this rare disease in a relaxed and informal atmosphere.

2012 promises to be a year of major steps forward for our community, including anticipated approval and availability of an eye treatment for cystinosis, and long-acting cysteamine requiring twice daily dosage. We hope you will join us to hear directly from experts about developments in gene and stem cell therapy and to connect with others affected by cystinosis.

All conference guests must register with the Cystinosis Foundation prior to the conference and submit a 25 Euros registration fee online at www.cystinosisfoundation.org

Please visit our web site in the coming weeks to make your accommodations reservation directly with the Marriott Charles de Gaulle, Paris in order to receive a discounted room rate that includes breakfast and VAT. Lunch and dinner will be provided to registered conference guests both Friday and Saturday. We encourage registration as soon as possible in order to take advantage of the discounted rates, as rooms are limited.

Single 115 Euros

Double 125 Euros

Triple 135 Euros

We look forward to seeing old friends and making new friends. Please direct questions to Valerie Hotz, executive director of the Cystinosis Foundation, at vhotz@cystinosis.com or call our toll free number (888) 631-1588.
